Medical Equipment Loan Cupboard

Did you know?

Hospice North Hastings has a Medical Equipment Loan Cupboard fully stocked to meet all of your Medical Equipment needs. This program is FREE to individuals in our community, and equipment can be loaned on short-term and long-term basis.

Are you in need?

Please call us today at (613) 332-8014 to inquire about equipment in our cupboard! We are requesting at this time that you do call in advance so equipment can be sanitized and ready for pick-up off the front porch of our Hospice House, so there is minimal contact to keep everyone safe as we navigate the COVID-19 regulations, and limit contact to keep our in-home patients safe. We thank you in advance for your understanding.

List of Equipment:

Walkers (wheeled/peg legged), Wheelchairs (transport/propelled), Canes, Crutches, Commodes, Bedpans, Raised Toilet Seats, Bath Seats/Benches, Sock Assists, Roho Cushions, Wedges, Sheep Skins, Bed Pads, and Attends.

Medical Equipment Donations?

Yes, we accept donations of new and used Medical Equipment to continually expand our loan cupboard to be able serve even more individuals in our community. If you have any equipment you are no longer using, and would like to donate it to Hospice, please drop it off on our porch at anytime. We greatly appreciate all donations of Medical Equipment to our cupboard.

Address:

27 Bridge St. East
PO Box 875
Bancroft, ON

Hospice House – NH

Hospice North Hastings continues to organize and run their programs, including the Medical Equipment Loan Cupboard, on donations from our community members.

We encourage those who are able to make a donation to our non-profit organization. These donations allow us to continue to provide these much needed services in our area; however, it is not mandatory to access the services we currently provide.

“Not every day is good but there is something good in every day.”

- Alice Morse Earl
